FAQ

> ***Who are the Mods?***

- Just Ven! Mod Cat is the original owner of this blog, who then left and passed ownership to me. Occasionally when I'm overwhelmed, I will ask her to help me out.

> ***Who is Rebornica/Bones/Sigma/Nef/etc.?***

- They are an artist who has done a plethora of problematic things ranging from tracing/stealing art, to straight up suicide baiting and abusing people. They appear to have stopped this behavior as of 2021. Time will tell.

> ***Why did they rebrand as Volt/Volter/Voltergeist?***

- Whenever something drama-related happens, Bones tends to take a "rebranding" approach of things to get away from past drama. They've done it several times now, going from Rebornica, to Deoxys, to Mx.Bones, to Nefarious/Nefurious_skull, etc. On their patreon, they cited the change as a "dissociative identity crisis" bringing up a new identity.

> ***What is the point of this blog?***

- The purpose of this blog is to archive and save any and all actions that Bones has done. Anything relating to Bones is welcome here.

> ***How do I get in contact with the mods?***

- The blog's discord account is nefskullcritique#0784

> ***Are you accepting new mods?***

- No.

> ***Why Did Bones go inactive in 2020?***

- Bones had suicide baited on instagram, saying they were going to either kill themselves or check into a hospital. They then went missing online and irl. After a leak to this blog and others, it was revealed Bones went into hiding and was only talking to their friends, and had their friends lie about not knowing where they were. They even cited they were "faking their death" to get people to forget about them. The whole tag is here.

> **Where is Bones now on Social Media?**

- Please DM the blog to get their new accounts.

> ***What happened to Pilot, Intergalactruce, and Minecraft Game Changers?***

- All three of these projects have appeared to have been shelved or cancelled. Bones themself said that Pilot is cancelled, Game Changers is officially inactive, and we're unsure if Intergalactruce will be picked up again.

> ***What is the link to your Mega Archive?***

- Here!

> ***Bones sold [x] character, why are they still drawing it?***

- Bones sold the original design, not the characters themselves. Despite that not being how selling designs work, it was the terms of Bones' character selling.

> ***Eugenics in Pilot? Where is this coming from/what do you mean/etc?***

- Here is my pilot lore tag, but the short version of it is that the webcomic would end in a robot vs humans war, with Norman being the leader of it all because he gained sigularity god powers. The robots won, and so they would take over the world. Bones described as the new robot society as it being so much better than when humans were the majority. Humans become a minority and must take a morality test three times in their life, and pass with a 95% or higher, or else they will be executed.
